

Farmayil Hasanov

Front-End Developer. Focused on clean code and modern architecture while building scalable web applications. Passionate about technology, creating modern UI/UX solutions, and collaborating effectively in team environments.

Work Experience

Frontend Developer **Fittest Azerbaijan** **Nov 2025–Present**

- Developed and maintained scalable frontend architecture, ensuring clean, reusable, and maintainable component structures across the project.
- Implemented modern UI/UX patterns and improved interface performance by optimizing rendering, API integration and state management flows.
- Collaborated closely with backend and design teams to refine business logic, improve integration quality, and create consistent design systems.
- Introduced internal best practices for code structure, naming conventions, file organization, and reusable component patterns.
- Led frontend task planning and collaborated with UI/UX and backend teams to ensure consistent interface design and efficient system integration.
- Tech stack: Next, TypeScript, Tailwind Css, Redux Toolkit, RTK Query, Shadcn Ui, React Hook Form, Zod, Swiper

Frontend Developer **Agile Pulse** **May 2025–Present**

- Launched internal Learning Center and Knowledge Share channels in stackoverflow.
- We are participating in pair programming with team members to maintain and improve the quality of our code, code refactoring, teaching, learning, and helping each other. Once a week 2 hours as part of the Best Practices call.
- Providing technical direction and sharing knowledge about component architecture, clean code, and scalable UI patterns.
- Managed frontend team tasks while collaborating with design and backend teams to optimize UI/UX and integration.
- Tech stack: React, TypeScript, Tailwind Css, Redux Toolkit, RTK Query, MUI, Formik, SweetAlert2, Toastify, React PDF, Chart.js, Slick, Yup, Vite

Frontend Developer **Eduguide** **Dec 2024–Apr 2025**

- Providing technical direction and sharing knowledge about component architecture, clean code, and scalable UI patterns
- Participated in pair programming sessions to maintain code quality, refactor, and share knowledge within the team.
- Tech stack: React, TypeScript, Redux Toolkit, RTK Query, Tailwind CSS, MUI, Ant Design, Formik, Tiptap, Remirror, DnD Kit, Vite, Axios

Education

- **Frontend Programming**, Master School, Azerbaijan. **2024**
- **Frontend Programming**, self-study **2022-Present**
- **Bachelor's Physics Education**, Ganja State University **2017-2021**

Technical Proficiencies

- Frontend Development: React, Next, JavaScript, TypeScript, Redux Toolkit, RTK Query, TanStack Query, Zustand, jQuery, REST API, WebSocket
- Markup & UI: HTML5, CSS3 / SCSS / SASS, Tailwind CSS, Shadcn Ui, Material UI, Ant Design...
- Forms: Formik, React Hook Form, Yup, Zod
- Databases & BaaS: Prisma, MongoDB, Firebase, Supabase
- Tools & Practices: i18n, Git, GitHub, Postman, Jira, Trello...

Languagese

- **Azerbaijani** - Native or Bilingual Proficiency
- **Turkish** - Native or Bilingual Proficiency
- **English** - Professional Working Proficiency
